

From the Communist Party of Greece

The necessity of overthrowing capitalist barbarity is more urgent than ever

International Relations Section, Central Committee of Communist Party of Greece

Dear comrades

These days our thoughts are with the heroic Palestinian people. We condemn the murderous military attack by the Israeli occupying state on the Gaza Strip and the barbaric blockade, supported by the USA, NATO and the EU. We join with him in calling for an end to the inhumane Israeli occupation and the creation of an independent Palestinian state on the 1967 borders, with East Jerusalem as its capital.

Dear friends,

We salute your event organized in honor of the 106th anniversary of the Great October Socialist Revolution, which opened a new era in history, the era of socialist revolutions and the transition from capitalism to socialism, bringing unprecedented conquests for the working class and the peoples.

Today the peoples are experiencing the results of the counter-revolution in the USSR and the other socialist countries in a tragic way. Capitalism, having gone beyond its historical limits, is becoming more reactionary, aggressive and dangerous. The exploitation of the working class is intensifying, the conditions of the peoples is worsening. The peoples are paying the price for the intensification of the antagonisms between the "Euro-Atlantic" and the "Eurasian" imperialist bloc for the interests of their monopolies and by multiplying the war zones.

The imperialist war in Ukraine between the USA, NATO and capitalist Russia is being consolidated and expanded by the dangerous decisions of the NATO summit in Vilnius. The monopolies are winning and the both the peoples of Ukraine and Russia are losing. The US-China rivalry for supremacy in the capitalist system is expanding to the Indo-Pacific, Africa, the Middle East and the Persian Gulf, the Balkans, the Arctic and the Middle East.

Very recently, the US, South Korea and Japan, following the trilateral summit in August at Camp David, undertook joint air exercises over the Korean Peninsula.

106 years after the victory of the October Revolution, the necessity of overthrowing

capitalist barbarity, socialism is more urgent than ever.

The defence of Lenin's theoretical heritage, of the laws of socialist revolution and construction, of the independence of the workers' movement against every bourgeoisie and imperialist alliance are the preconditions for the counter-attack of the workers' and revolutionary movement.

Comradely,

International Relations Section of the CC of the KKE
