

**From the Communist Party of the Philippines (PKP-1930)**

**We congratulate you for your extraordinary efforts in the international women's  
liberation struggle**

**Eduardo F. Landayan**

**General Secretary, Communist Party of the Philippines (PKP-1930)**

Dear Comrade,

Our warmest comradely greeting and embrace to our comrades who did invite us and requested our message on this important women rally. We are very grateful to you and the participants of this event for your tireless effort in celebrating and commemorating annually this very significant day for the woman of the world.

Also we extend congratulation for your tireless and unparalleled effort in the international struggle for the cause of women struggle, in Gaza and the Palestinian people for their liberation, in the preservation of world peace and against war, for the closure of foreign military bases, for promoting neutrality and against foreign meddling in not only on your country but worldwide, for the specific women struggle against sexual exploitation and abuse committed by foreign servicemen in your country and worldwide and for your domestic struggle against male domination...our un-fathom appreciation for your heroic effort and struggle. We salute!

Dear Comrade, there are global development today which is prospering in favor of peace in general and of course in particular to women question. The very fact of the ending the war and conflict in Ukraine and in Gaza is signified the temporary end the million women suffering as orphan mother and widow, of women suffering from destroy dwelling and communities, deprive of social necessities for health, education and others demanded by normal living. The period of fear, anguish, dislocation and danger has somewhat lessen. But as often expected it is temporary. The propose peaceful settlement in Ukraine and stoppage and ceasefire in Gaza is very fragile and anytime at an instant may erupt again towards total war. We hope that it will not resurrect and exacerbate in the future and hope that the liberation of the Palestinian people will be achieve. That the anti-fascist war in Ukraine will end and fascism and militarism will never resurrect and will be destroyed worldwide.

Dear comrades,

With the very sudden development and event that is enveloping between the United States and Russia, in the Middle East between Palestinian and Zionist Israeli we need to somewhat change our global outlook and attitude. But together with this development we should not overlook the fact that this development and current changes are optimistically designed because of the inability of capitalism to rule the world and exercise its global hegemony and this is very true in our Asian Region. The global economic crises of capitalism, burden by massive debt, global recession and hyper-inflation shift imperialist rivalry in Asia and the Pacific region, creating our respective country as their battleline against growing economy of China. It refocus its target on Asia and how to undermine the growing economy of region. While growing inter-imperialist economic rivalry is exacerbating in Europe, in the American continent. Militarism and economic war will rise will accelerate in Asia. This is the new frontier and fronts that we expect in future. We understand that it will be translated into more taxes, lessening of government support for the basic economic and social support for the people, more marginalization of women and the lower strata of the population.

For us who are gearing for the challenges and development it's high time to re-evaluate our ways means to face these challenges and development. We need much stronger and militant cooperation, more creative action and much stronger unity and collaboration.

Thank you and our best wishes for more successes.

Long Live the International Women Day.
